Professional Experience

Qantev | AI-powered health insurance claims platform **Paris, France**

Lead Frontend Engineer *November 2024 – March 2025*
- Leading a greenfield project from architecture to implementation using TypeScript, Next.js, Zod, and Prisma
- Architecting OAuth flows, roles, and permissions to ensure data security between multiple tenants
- Leveraging React Server Components to reduce complexity by replacing the API layer

Software Engineer *June 2023 – November 2024*
- Built core features for a production application, integrating a React front with a Django API server
- Modernized key parts of a legacy codebase by removing obsolete modules, reducing technical debt
- Proactively addressed developer experience issues such as build times, leading to an 8x speed increase
- Worked in an Agile environment, delivering feature iteratively and collaborating with project/design teams

Frontend Developer | Fixed-term contract *May 2022 – August 2022*
- Rewrote ~45% of the code from JavaScript to TypeScript to catch potential bugs and improve maintainability
- Simplified API calls by replacing custom utilities with TanStack Query

Software Engineering Intern *June 2021 – September 2021*
- Integrated into the French work culture within a seed-round startup
- Refactored existing code to meet elevated code safety standards and executed a rigorous QA session
- Developed a full-stack module to empower sales demos

Cloverleaf **Covington, KY, USA**

Software Development Intern *May 2020 – August 2020*
- Worked as part of an agile development team to create new functionality for a production application
- Followed company procedures on feature contribution, legacy code refactoring, and documentation

University of South Carolina **Columbia, SC, USA**

UNIX Teaching Assistant *December 2019 – May 2020*
- Instructed students on the fundamentals of Linux and UNIX, Bash scripting, and terminal commands
- Led 8 sections of lab (Monday–Thursday, 2 times per day), with a total reach of 250 students
